FINANCIAL POLICY

We are committed to providing you with the best dental care. Our fees reflect our professional commitment to excellence. If you have dental insurance, we are happy to help you receive your maximum allowable benefit. In order to achieve these goals, we need your assistance and your understanding of our payment policy. For your convenience we offer a wide range of financial options in order to pay for your dental treatment:

A) Split Payment

Half of the total treatment is due at the preparation visit, and the second half is due the day of cementation of the crowns/bridges/veneers.

B) Pay as You Go

You may choose to pay your obligation for each visit with cash, check, or credit card at the visit.

C) Prepayment in Full

For any treatment over \$2000, a prepayment Bookkeeping Courtesy of 5% will be given for direct payment in full by cash or check before or at the first treatment visit.

D) CareCredit

Care Credit offers No Interest financing for up to 24 months and low monthly payment options. There are no up front costs, no prepayment penalties and no fees as long as it is paid in full by the end of the term. This allows you to get the necessary work done now and pay later.

FORMS OF PAYMENT ON BALANCES DUE

In order to facilitate access to the very best dental care possible, you may choose from any of the following: Cash, Visa, MasterCard, American Express, Discover, Personal Checks or Care Credit (see above).

Interest of 1.5% per month will be charged on any unpaid balance after 60 days. This allows sufficient time for your insurance carrier to make payment. By law, insurance companies are required to make payment or deny a claim within 30 days. Please be aware that your dental benefit program is a contract between you, your employer and the insurance company. We are not a party to that contract. We file insurance claims as a courtesy to you, our valued patient. You are responsible (not your insurance company) for all fees for services rendered. We will gladly assist you in any way we can.

I understand that if I become delinquent on my account, my account will be turned over to a collection agency and I will subsequently be reported to the credit bureaus. In case of total default I agree to pay all costs for collection including but not limited to interest, court costs, sheriff fees, attorney fees and collection costs that may be incurred to collect on this account.

Please be aware that any parent or guardian bringing a child to our office is legally responsible for the payment of services rendered.

After your dental insurance has paid for dental services rendered at Dental Care of Plano, you may have an outstanding balance. This balance may include any deductibles, copayments, denials, and non-covered services. We do our best to estimate what you will owe. For balance owed, we will require a credit card authorization, or you may need to pay your entire balance up-front.

You, the patient, have the right to accept or reject dental treatment by your dentist. Prior to consenting to treatment, you should carefully consider the anticipated benefits and commonly known risks of the recommended procedure, alternative treatments, or the option of no treatment.

Do not consent to treatment unless and until you discuss potential benefits, risks and complications with your dentist and all of your questions are answered. By consenting to treatment, you are acknowledging your willingness to accept known risk and complications, no matter how slight the probability of occurrence.

As with all surgery, there are commonly known risks and potential complications associated with dental treatment. No one can guarantee the success of the recommended treatment, or that you will not experience a complication or less than optimal result. Even though many of these complications are rare, they can and do occur occasionally.

Some of the more commonly known risks and complications of treatment include, but are not limited to, the following:

- 1) Pain, swelling, and discomfort after treatment
- Possible injury to the jaw joint and related structures requiring follow-up care and treatment, or consultation by a dental specialist;
- Temporary, or, on rare occasion, permanent numbness, pain, tingling, or altered sensation of the lip, face, chin, gums and tongue along with possible loss of taste;
- 7) Damage to adjacent teeth, restorations or gums;
- 9) An altered bite in need of adjustment;
- Possible deterioration of your condition which may result in tooth loss:
- 13) Jaw fracture;

- 2) Allergic reaction to anesthetic or medication;
- A root tip, bone fragment or a piece of a dental instrument may be left in your body, and may have to be removed at a later point in time;
- 6) If upper teeth are treated, there is a chance of a sinus infection or opening between the mouth and sinus cavity resulting in infection or the need for further treatment;
- Infection in need of medication, follow-up procedures or other treatment:
- The need for replacement of restorations, implants or other appliances in the future;
- 12) Need for follow-up care and treatment, including surgery;
- 14) Prolonged numbness.

Additional treatment at additional cost may be required.

It is very important that you provide your dentist with accurate information before, during, and after treatment. It is equally important that you follow your dentist's advice and recommendations regarding medication, pre and post treatment instructions, referrals to other dentists or specialists, and return for scheduled appointments. If you fail to follow the advice of your dentist, you may increase the chances of a poor outcome.

Certain heart conditions may create a risk of serious or fatal complications. If you (or a minor patient) have a heart condition or heart murmur, advise your dentist immediately so he/she can consult with your physician if necessary.

The patient is an important part of the treatment team. In addition to complying with the instructions given to you by this office, it is important to report any problems or complications you experience so they can be addressed by your dentist.

If you are a woman on birth control medication, you must consider the fact that antibiotics might make oral birth control less effective. Please consult with your physician before relying on oral birth control medication if your dentist prescribes, or if you are taking antibiotics.

This form is intended to provide you with an overview of potential risks and complications. Do not sign this form or agree to treatment until you have read, understood, and accepted each paragraph stated above. Please discuss the potential benefits, risks and complications or recommended treatment with your dentist. Be certain all of your concerns have been addressed to your satisfaction by your dentist before commencing treatment.

Appointment Agreement

At Dental Care of Plano, we understand that your time is very valuable. We are constantly striving to make your experience here more pleasant than any other place you have previously been. Trying to accommodate every patient's individual needs and work schedule can be challenging. We make every effort to stay on time so that our patients will not have to wait unnecessarily.

Your appointment is a commitment of time between you and our office. We ask that you make every effort to keep that commitment. We do provide a courtesy reminder call one to two days prior to your appointment.

If you find that you cannot keep your appointment, we do require a minimum notice of 48 business hours so we are able to assist other patients with their dental needs. If our office is not notified within the 48 business hours, you will be subject to a \$50 late cancellation charge.

By signing below, I agree to fulfill my obligation as a patient at Dental Care of Plano and agree to the "broken appointment" fee should I not give proper notification.
